

## SHOULD FIX THE ROAD.

## Kings Canyon Grade a Picturesque Route to Lake Tahoe.

A trip over the Kings Canyon route to this city from Glenbrook will convince any traveler that it is the natural and picturesque route to take. The route was the original one selected and cost a fortune to build, but when fluming commenced down Clear Creek the old road was allowed to go into disuse and in consequence the people have almost forgotten what a picturesque route it is.

The road was built with a slight grade from this city to the summit, and none of the grades from this way up are of as a severe a nature as those encountered on the Clear Creek grade. It is true that the road is no longer, but the shade, the fine view and the steady grade make up for lost time, while on the way down it is about an even thing.

The road from this city to Swift's Station, where Ed. Sweeney is busy taking out wood is in very good order, but from this point on it has been neglected and rocks and bad places are found along the line. It would take but a few days work with two men to make it a far better and more pleasant way of going and coming than the one used at present.

The Commissioners at their next meeting should allow a matter of twenty dollars to place the road in shape and this amount would do the work and prevent much damage from the coming winter storms.

Should a few tourists ride over the road to this city the fame would spread and it would become a popular way to travel. The trouble is that Carson has never taken a hand in the booming Lake Tahoe, and especially this end. The Kings Canyon road is a splendid piece of work and once it becomes known to the traveling public they will insist on this way of coming from Glenbrook, which is the sensible and direct route to the Lake.

## Sheepman Shot.

A sheepman named Augustine Sansiberry was discovered with his sheep within the lines of the park Wednesday by Corporal Hasbrook and Private Bishop of the Troup M. 4th U. S. Cavalry, and taken into custody. They camped at Lake Barney that night and intended leaving the next morning with their prisoner. Next morning when engaged in making ready for travel, Sansiberry made a break for liberty. Paying no heed to an order to halt and a shot over his head, and was shot below the right shoulder blade. The injured man was brought to Bridgeport yesterday and the wound dressed by Dr. Krebs who reports that it is not serious. —Bridgeport Chronicle.

## Loses His Eyesight.

Charles D. Lane, the millionaire mine owner, well known throughout Nevada and California, has become blind. He was stricken at Nome, Alaska, and is now led helplessly around by an attendant. Mr. Lane arrived at his home in San Francisco last week and is now being treated at that place. Mr. Lane is heavily interested in mines in White Pine county and other sections of Nevada. He is also one of the owners of the famous Utica mine at Angels Camp, Cal., as well as mines around Nevada City and Grass Valley.

## Clark Road is Reorganized.

Chicago, August 18.—The Chicago and Northwestern Railway announced today that the new route to Los Angeles and San Pedro road would be made the route of through Pullman sleeping car service from Chicago daily. Pullman tourist sleeping cars will be put in service via the Northwestern line, Union Pacific and the Salt Lake route in a few days to take care of a large colonist movement that is anticipated in the fall. Connection has also been established with the overland limited to Los Angeles providing an additional route.

It is rumored that the company which recently purchased the Eureka Mill and Hayward Mine will tear the mill down and re-erect it at the mine, and will develop the property on a large scale, the mill will be put up close to the mine and the ore will be handled but once. If the plans are carried Silver City will be one of the liveliest camps in the State, and will lead to the workings of other properties in that vicinity.

Wanted—Two good men who have had practical experience, one a mill man and one a cyanide man. Write to or inquire of Chas Barrett, General manager, Loope, Alpine County, California.

## CORNER STONE LAID.

## New School House Dedicated by the Masonic Lodge.

Yesterday afternoon the new school building for this city was the center of attraction, as the laying of the corner stone took place. The ceremony was in the hands of the Masonic Lodge and their beautiful ceremony was given in full. The Knight Templars in full regalia were present which made a very impressive scene.

The school children attended and their rendition of "America" and "My Own United States" were appreciated by the big crowd which was present. After the opening ode by the school children, the corner-stone was swung into place. Oils and wine were poured forth as a libation.

The corner stone contains a number of articles including copies of the News, Appeal, Progressive West, Indian Advance Carson Weekly, list of teachers photos presented by the Little Misses Livingston, coins and a list of the Board of Trustees, name of superintendent of schools and other interesting data.

Grand Master Beemer of the Grand Lodge concluded by the Masonic ceremonies and Grand Orator Sam Platt delivered a masterful discourse.

At the conclusion the grand honors were given by the Masonic Lodge and the Masonic fraternity adjourned to the hall for a banquet which was tendered by the local members of the visiting brethren. The board of school trustees were also invited to attend.

## NEW BUS.

## Hot Springs Put on as Up-to-date Rig for Service.

Yesterday the new bus for the Shaw's Hot Springs was put in commission and in a few days the new horses will go into service. The new rig is not only fine looking but is comfortable in every particular.

It is such improvements as this which makes the springs what is wanted. The service up to this time has been anything but what would appeal to the patrons, but under the new management every promise that has been made has been kept and new improvements are going on every day.

The intention is to steadily improve conditions out that way. New rigs, new hotel, new people and new ideas are being managed and before the winter overtakes the owners there will be such a change in the old springs that the visitors and Carsonites will hardly know the place. The new bus is the first improvement to be added to the equipment. Mr. Ballard, the manager is hustling and making guests more welcome and has kept it crowded to its capacity for the past thirty days.

A thief got into Judge Cheney's safe in his Reno law office the other day and took therefrom a gold watch and locket presented to him by the bar and officers of the District Court. He values the watch and locket highly and has offered a reward of \$100 for their return to him. Besides the reward he offers, Judge Cheney promises to ask no questions.

Mrs. Aaroe and daughter, Dora, arrived last evening from Tonopah on a visit to Mrs. Aaroe's daughter, Mrs. Horace Meder.

Six cars of sheep were shipped yesterday morning to California markets.

## THE NEW LIBRARY.

## It Will Be Built on the Capitol Grounds in Rear of Supreme Court Rooms.

Yesterday the State Board of Capitol Commissioners met to see what answer the citizens of Carson had for the Commissioners relative to the site of the new State Library. When the meeting convened there was no one present representing the citizens. A resolution was accordingly passed to the effect that the citizens of Carson not having selected a site after having had thirty days to act that the site be the same as originally selected by the Board, the rear of the Capitol Building.

Controller Davis was against the resolution and asked for a recess until 4 o'clock to give James Davis and Gov. Colcord time to address the Commissioners. The recess was taken and Mr. Davis on behalf of Gov. Colcord and T. B. Rickey asked until the 1st of September to allow the site to be purchased. He stated that the people who had the matter in hand had been very busy and that Mr. Rickey who was suddenly called to Denver had agreed to take hold of the matter personally on his return which would be inside ten days. Controller Davis offered as a resolution that the time be granted but there was no second and the result is that the original plans of an octagon building will be used and it will be built in the rear of the Capitol connected with the present Supreme Court room by a bridge.

The upper story will be used as a law library and the lower as a miscellaneous library. This will enable the Court to have easy access at all times to the law library which will be on the same level and the present Court room will be used and the Supreme Judges retain their present quarters. The Board adjourned to meet Monday Oct. 23.

## Government Control.

L. H. Taylor, engineer in charge of the reclamation work in Nevada, says the suit of M. F. Vandall, who seeks to control the headwaters of the Truckee at Lake Tahoe, cannot permanently affect the reclamation of the Carson sink.

Even if Vandall, who represents the Truckee River General Electric Company and the Floriston Paper Company, should be successful, the government could speedily condemn the lands abutting on the dam at the Lake.

A year ago, Mr. Taylor says, the government purchased the artificial outlet from the lake, including the 2,000-foot channel and the dam constructed by the Donner Lumber Company, while Vandall simply represents the owners of the land abutting on the dam.

Wanted—Competent manager to represent our business and take charge of our office located at Carson City. Experience in our line is not absolutely necessary, but mechanical taste is preferred. Party must come well recommended and be willing to invest small amount, which will be amply secured. Liberal salary, commission and yearly contract to right party. Address, "SECRETARY" F. W. Telephone Mfg. Co., 1095 Market Street, San Francisco, Cal.

L. C. Branson, editor and proprietor of the Tonopah and Goldfield Sun and who is interested in other newspapers in the southern country, passed through Carson City last evening on his way to meet his wife, who has been visiting in California.

## CHRIS BUCKLEY.

## Examined Lauding the Man it Would Have Ruined.

People who read yesterday's Examiner must have been a little astonished to read the first article on the first page which described in flow-in periods of Ned Hamilton, now Chris Buckley was the guest of honor at a lunch given by Eugene Woods, the confidential agent of the Vanderbilts, at the Palace Hotel. It seems, by the Examiner that Buckley is the particular confidential friend of Woods who is about the biggest man now in railroad affairs in the United States and backed by billions of capital and who has the very highest financial and social position.

Well, it looks odd to read these things about the man whom the Examiner used to cover with abuse years ago.

The writer has known Buckley for about thirty years and can assure Mr. Woods that if he has any business with Buckley he will find him a man whose word is as good as any bond that Wall Street can produce and whose loyalty to his friends has won him the esteem of thousands.

The terrible Frankenstein that the papers made of him for political purposes and the real Chris Buckley are as distinct as two things can possibly be.

In all his career he never answered the attacks of his enemies but went along about his business and being totally blind he was never in a position to go into a newspaper office and thrash a producer and he was not the sort of man to hire any one to take care of his personal quarrels. The writer who made these attacks knew of his physical infirmities and took advantage of them.

Buckley is no wout of politics and a retired capitalist. A few weeks ago he completed a building on Market street and gave it to his nine year old son. The rentals amount to \$25,000 per annum for twenty years.

Having thus provided for his son he proposes to take life easy from this on. He is not a man, however who is likely to remain idle and the Appeal can assure its readers that inside of a few months Mr. Buckley and his associates will be doing business in Nevada on a large scale and a business that will result in large benefits to the State and its people.

## SUCCESSFUL WEEK.

Georgia Harper Company Fill a Successful Engagement.

The Georgia Harper company finished a weeks engagement at the opera house last evening, and in spite of the fact that many people were absent from town and hot weather to contend with, yet a very successful week was the result.

Last evening "The Lyric Queen" was presented and the best house of the week greeted the players. The play was a good one and thoroughly enjoyed by those who were present. Should the Harper people come this way again they will receive better treatment, so they have made good in every play and are regarded as standbys. It is hoped they will come again in a more favorable season.

## Annual Passes for Employees.

The Southern Pacific announces that annual passes will be issued to train dispatchers, station agents, conductors and engineers, who have been in the service ten years or more on the following basis: for service over ten years and less than fifteen, an annual pass, good over the division on which the employee is located; for service over fifteen years and less than twenty years, and annual pass for self and wife over the division; for more than twenty years service, an annual pass over the entire system for the employee and defendant members of his family.

## An Indian School.

Indian Training Schools are becoming the fad in Nevada. The last to be added to the list is at Fort McDermitt, which will be established this fall. Government inspectors are now on the ground and they announce that the first building will be ready in October, so that this winter may be given over to instruction. Uncle Sam can't spend too much of his coin in Nevada even if it does go to make the red man whiter.

Now is the time to secure some good bargains in footwear. All brand new stock. Nothing in the shape of second good carried. You can always find reliable footwear at Ed. Burlington's. His good salway speak for the selves.
